Banning High School has many great assets, yet one special person has been recognized this year as one of the greatest. That person is Mr. James Rusk. Mr. Rusk has spent 11 dedicated years teaching Western Civilization and Psychology. In addition to teaching, he has become very involved as "student activities advisor" and has devoted many hours to the students of B.H.S. Mr. Rusk has always been the kind of person that can be depended upon to supervise at dances and other activities. At all times of the day, Mr. Rusk can be seen with numerous students talking, and of course always laughing and joking. Many of his friendly student-teacher talks have helped students on their long road to the outside world. Everyone needs someone to whom they can turn, to talk their problems out with and to confide in. Mr. Rusk is that person to all. Always there when needed, Mr. Rusk is always more than willing to help students decide upon which road to take. His unfailing pride in B.H.S. has encouraged many to keep on trying. More than a teacher, he's a friend; and because of this the 1976-77 annual is dedicated to him.

FACULTY

When we, as students, make a decision on which direction in life to work toward, it is comforting to know that someone is behind us in that decision. The faculty at B.H.S. is an understanding group that students feel are their teachers and advisors as well as their friends. Annual Staff asked the faculty for advice they would give students as the time nears to set out on the road to life.

Best Wishes

SENIORS

The most important time of a student's high school career usually ends up being the last year. The senior year marks the end of being a "kid" and the beginning of adulthood. Being a senior is the initial step to making your own decisions. Those are the important decisions that will affect your future. A new concept is not only learned, but experienced also - that concept of, "If I don't do it, it won't get done."

But fortunately, being a senior can be great. There are certain things which only the graduating class may participate in. The fact that being a senior classman is special, makes a senior FEEL special.

UNDERCLASSMEN

Growing up to become a part of the "adult world" can be very frustrating. The first three years in high school can be the most trying period of that growth. Sharing experiences with new friends and accepting humiliation from upperclassmen are a few of the highlights that an underclassman goes through.

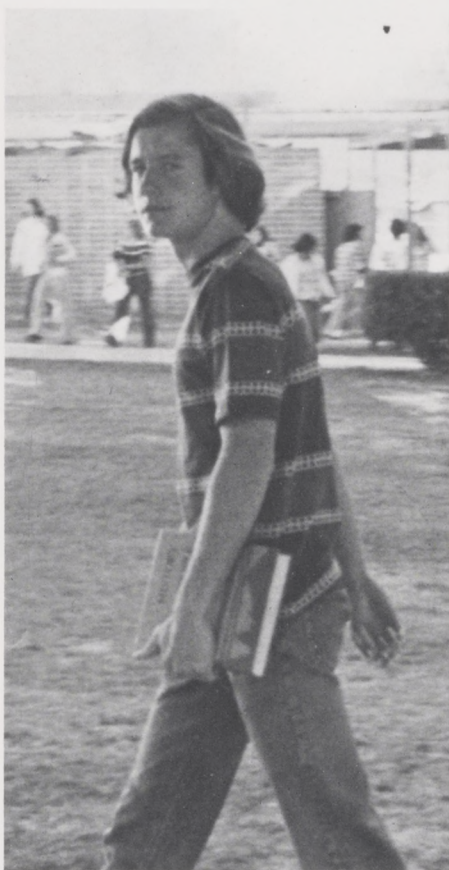

But the best thing about being an underclassman is that you have a little longer to procrastinate about the upcoming responsibility of being a senior.

ACTIVITIES

Having people get together, work with each other, make decisions, and have a good time is an important part of growing up. The clubs of Banning High School are "active" because of the people that put them together, and make them work. Knowing that a dance may be coming up, that a club will soon be sponsoring a field trip to Disneyland (conveniently during school hours), or that the last 55 minutes of school will be spent at an assembly for the basketball team, gives the school year a few more things to look forward to. Activities are what give the student body pep, the ability to accept responsibility and the reassurance that school doesn't have to be all work, it can be fun!

ATHLETICS

The feeling of belonging to something worthwhile can be very rewarding. This is the feeling an athlete receives from participating in the sports program. Even more important, with most sports, is the ability to really be a team. For many people to play as one entity is very difficult to accomplish. But at one time or another this oneness is achieved. It seems

that practice is the hard part and the anticipation to play is even worse. But to know you are number one is worth all the running that the coach made you do. The self-satisfaction felt from knowing you were a part of that team and you helped make those points, is the best feeling in the world.

The annual staff of Banning High is a dedicated group who devotes many hours to not only putting the annual together but getting out and around the community to get the most important part of the annual: the ads. The purchase of ads by businesses and companies is what the staff depends upon most for the money to produce the annual each year. The entire staff would like to thank the community for its cooperation and support. The annual lives up to the saying that it is "The Pride of Banning."

Last year I joined the annual staff in the second semester of the year, and I really enjoyed being a member of that staff. This year I was chosen as annual staff editor and I felt very honored, because I really think we are a very hard-working and dedicated group. Even though sometimes we wander in and out the classroom (mostly everyday), we do get the job done! I feel that being a member of the annual staff is a very important responsibility, because the members are hand-picked and if you happen to be one of those who are chosen, you should feel proud that you were picked to prepare the annual.

I would like to express my appreciation to Terisa Guerth for a fine job on the cover, and to the members of the faculty for letting the members of the annual staff out of class to work on our yearbook. I also would like to thank Mrs. Kaku for being cool, calm, and understanding when things didn't go right. I feel that this is an annual that we all can look back on and that will remind us of all the good memories of Banning High School.
